SAGE Publishing continues to grow its teaching case collection, SAGE Business Cases, across the business & management spectrum while focusing on key areas we care deeply about. The Sustainability Series within SAGE Business Cases debuted in January 2019. These cases highlight the operational intersection between the private sector, public sector, and natural world, exploring how organizations can shape and be shaped by their physical, stakeholder, and regulatory environment. As we prepare for a third release in January 2021, we are particularly interested in submissions that discuss solutions to and effects of climate change.

SAGE is pleased to offer case authors:
- Double-blind peer review of your case and teaching notes
- A thorough editorial process, working to develop your ideas and prepare cases for successful publication
- Freedom to include your students in the case research and writing process
- Copyright in your name and final PDF for ease of use in your classroom
- $500 when your case is published
- An international audience for your work

Sample Titles from the Series
- AEC Computer: Adopting a Circular Business Model for Used Electronics
- Rana Plaza Collapse, Its Aftermath, and Future Implications for Sustainability
- Eating Bugs on Purpose: Challenges and Opportunities in Adapting Insects as a Sustainable Protein
- The Hurricane Maria Crisis: Defining and Responding to the Disaster in Puerto Rico

**DEADLINE FOR SUBMISSION: ROLLING**
We look for cases between 1,000 and 5,000 words. Please include discussion questions and teaching notes. Guidelines, templates, and submission portal may be found at [http://sk.sagepub.com/business-cases-authors](http://sk.sagepub.com/business-cases-authors). Authors receive decisions within 6-8 weeks.
