

Partner with SAGE to develop your **Sustainability** case

### Series Editor

Vesela Veleva, ScD, University of Massachusetts-Boston

**SAGE Publishing** continues to grow its teaching case collection, **SAGE Business Cases**, across the business & management spectrum while focusing on key areas we care deeply about. The [Sustainability Series](#) within SAGE Business Cases debuted in January 2019. These cases highlight the intersection between the private sector, public sector, and natural world, exploring how organizations can shape and be shaped by their physical, stakeholder, and regulatory environment. As we prepare for a fourth release in January 2022, we are particularly interested in submissions that discuss solutions to and effects of climate change. Submitted cases should articulate what sustainability is for the specific company/industry and consider introducing a dilemma which challenges students to develop their problem-solving and system thinking skills.

SAGE is pleased to offer case authors:

- Double-blind peer review of your case and teaching notes
- A thorough editorial process, working to develop your ideas and prepare cases for successful publication
- Freedom to include your students in the case research and writing process
- Copyright in your name and final PDF for ease of use in your classroom
- Payment when your case is accepted for publication
- An international audience for your work

### Sample Titles from the Series

[AEC Computer: Adopting a Circular Business Model for Used Electronics](#)

[Rana Plaza Collapse, Its Aftermath, and Future Implications for Sustainability](#)

[Eating Bugs on Purpose: Challenges and Opportunities in Adapting Insects as a Sustainable Protein](#)

[The Hurricane Maria Crisis: Defining and Responding to the Disaster in Puerto Rico](#)

### DEADLINE FOR SUBMISSION: ROLLING
