**SAGE Publishing** continues to grow its teaching case collection, **SAGE Business Cases**, across the business and management discipline while also focusing in on key areas we care deeply about. The **Sustainability** collection within SAGE Business Cases will highlight the operational intersection between the private sector, public sector, and natural world, exploring how organizations can shape and be shaped by their physical and regulatory environment. We invite cases that explore challenges to responsible long-term development, and aim to build a collection with a variety of perspectives on environmental, social, and economic sustainability.

SAGE is pleased to offer case authors:

- Double-blind peer review of your case and teaching notes
- A thorough editorial process, working to develop your ideas and prepare cases for successful publication
- Copyright in your name and final PDF for ease of use in your classroom
- $500 when your case is published
- An international audience for your work

Have you written a case that you currently use in your classroom? Do you have an idea or a rough draft of a case? Bring it to SAGE and we’ll work with you to develop your idea and ready it for the global classroom.

**DEADLINE FOR SUBMISSION:** Rolling

We look for cases between 1,000 and 5,000 words. Please include discussion questions and teaching notes. Guidelines and templates may be found [here](https://sk.sagepub.com/cases). Manuscripts are accepted on an ongoing basis through our ScholarOne [portal](https://sk.sagepub.com/cases).
